Openpath Smart Readers

The Openpath door reader leverages industry leading security combined with an elegant design that will enhance any door and office environment. Now offered in both high frequency (HF) and low frequency (LF) options, the Openpath reader fits your specific needs. The standard reader can be flush mount inside a single gang box, providing a slim profile, while the mullion form is ideal for surface mounting where space is limited, like on a doorframe.

Openpath Access

Openpath creates smart security solutions for the modern office. The company’s flagship product, Openpath Access, combines sleek hardware with an app, enabling employees to enter the office using their smartphone. Unlike legacy systems, Openpath’s software is cloud-based, meaning Access easily scales with your business and seamlessly integrates with platforms like GSuite and Office365.

Openpath’s patented SurePath Mobile technology ensures reliability and quick entry via Bluetooth, Wi-Fi and LTE. With encryption at every level and powerful, user-level permissions, Openpath Access is both more secure and more dynamic than traditional access control systems. Openpath Access’ streamlined, customizable features make office management easier than ever.
