

Openpath Elevator Board

16 Relay Module

The Openpath Elevator Board extends access control capabilities to standard elevators, enabling building owners and tenants alike to secure and control access to specific floors. The Elevator Board is an optional expansion board for the Openpath Smart Hub that supports up to 16 floors and two Openpath Smart Readers. One Smart Hub can support up to three Elevator Boards, which are easily identified via seven-segment displays. Now, elevators can enjoy the same frictionless access with the use of Openpath Smart Readers and mobile credentials.

Offered as two separate SKUs:

- Controller with 12VDC and 24VDC Power Supply and Elevator Expansion Board
OP-20ESH-24V
- Standalone Elevator Expansion Board.
Must be used with a Smart Hub.
OP-16EM

Features

- Connects to the Openpath Smart Hub via USB—a Smart Hub can support up to three Elevator Boards.

Openpath Access

Openpath creates smart security solutions for the modern office. The company's flagship product, Openpath Access, combines sleek hardware with an app, enabling employees to enter the office using their smartphone. Unlike legacy systems, Openpath's software is cloud-based, meaning Access easily scales with your business and seamlessly integrates with platforms like GSuite and Office365.

Openpath's patented SurePath Mobile technology ensures reliability and quick entry via Bluetooth, Wi-Fi and LTE. With encryption at every level and powerful, user-level permissions, Openpath Access is both more secure and more dynamic than traditional access control systems. Openpath Access' streamlined, customizable features make office management easier than ever.
